Like you, we are looking forward to Spring 2022: a bright new season full of freedom and hope—and great books and gifts.

What better way to start than with our angels deck? In *Angels for the Modern Mystic* you won't find rose-cheeked Renaissance cherubs but rather modern entities in tune with contemporary concerns who are capable of inspiring even the most hard-nosed urban skeptic to let the light in and access their full potential. Speaking of finding transcendence in contemporary life, this Spring we turn to that great guru, performance artist Marina Abramović, and publish her method for the first time (it helped Lady Gaga quit smoking). And just in case you need bit of extra wind under your sails, make sure you have *The Box of Luck* by your side.

The natural world is very much at the forefront of all our minds and we continue to explore its wonders, from Jack Wallington's manifesto *A Greener Life* to the wildlife photographs of David Yarrow, and from the treetops of our *Around the World in 50 Trees* jigsaw puzzle to the bottom of the ocean with the games *Deep Sea Discovery* and *Who's Hiding in the Ocean?*

But before you set off to change the world, we'll help sustain you in the healthiest and most original way with *The Green Lunchbox* and *Mind & Bowl: A Guide to Mindful Eating*.

And if your mind, or mindfulness, requires further stimulation, please note that we continue to innovate in the jigsaw area with the first of our collaborative puzzles, *Dog Day Out!*, and the latest of our challenging cluster puzzles, *299 Fish and a Diver*, not to mention the exclusive, show-stopping 1000-piece jigsaw *The World of Agatha Christie* celebrating the astonishing life and work of the doyenne of crime fiction (who among other things was also a pioneer of surfing!).

As this is the season of hope and positivity, I would like to mention two publications on a subject that has been in all our minds. Our *Black Heroes* card game features great historical role models from Nelson Mandela to Simone Biles (via Queen Nzinga and Angela Davis), while the groundbreaking photography showcase *As We See It* features forty black photographers who bring a fresh perspective on black identity.

From our new home at Hachette, we would like to wish you all an inspiring Spring!

Match a Track Near You

Match 25 Animals to Their Paw Prints

Marcel George

- Vibrant, accurate illustrations. Marcel George's beautiful watercolor illustrations are a family favorite across our bingo and memory game ranges
- Easy to play: A fun, simple game for families to play together, and a great way for children to learn about animals
- Tactile: Debossed cards give a tactile dimension to each animal's paw print so that kids can really feel like trackers

Show off your best animal-tracking skills in this brilliant matching game, a sequel to the bestselling Match a Track! The task is to match 25 tracks to their animal owners. But where the original game featured leopards and lemurs for an armchair safari, this version is full of animals you can actually look for in the wild near you! OK, there are a few fun creatures in here that might require you to live someplace pretty exotic, but most of them are easily accessible so that you can learn to spot their tracks while playing the game and then try to find them in the wild!

AUTHOR Marcel George is a London-based illustrator who specializes in creating hand-painted contemporary watercolor illustrations.
